

```
v8::internal::compiler  
::Loong64OperandConverter  
::ToMemOperand
```

A diagram illustrating a transformation in the V8 compiler. It consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'v8::internal::compiler', '::Loong64OperandConverter', and '::ToMemOperand'. The right box is gray with a black border and contains the text 'v8::internal::compiler', '::Loong64OperandConverter', and '::SlotToMemOperand'.

```
v8::internal::compiler  
::Loong64OperandConverter  
::SlotToMemOperand
```
