

v8::internal::JSTemporal
PlainDate::ToString

v8::internal::JSTemporal
PlainDateTime::ToString

v8::internal::temporal
::GetTemporalShowCalendarName
Option

```
graph LR; A[v8::internal::JSTemporalPlainDate::ToString] --> C[v8::internal::temporal::GetTemporalShowCalendarNameOption]; B[v8::internal::JSTemporalPlainDateTime::ToString] --> C;
```

The diagram illustrates a mapping from two source functions to a single target function. On the left, two white rectangular boxes with black borders contain the source function names: 'v8::internal::JSTemporal PlainDate::ToString' (top) and 'v8::internal::JSTemporal PlainDateTime::ToString' (bottom). On the right, a larger gray rectangular box with a black border contains the target function name: 'v8::internal::temporal ::GetTemporalShowCalendarName Option'. Two blue arrows point from the right side of each source box to the left side of the target box, indicating that both source functions are mapped to the same target function.
