

cppgc::internal::MarkerBase
::NotifyConcurrentMarkingOfWork
IfNeeded

```
graph LR; A["cppgc::internal::MarkerBase  
::NotifyConcurrentMarkingOfWork  
IfNeeded"] --> B["cppgc::internal::Concurrent  
MarkerBase::NotifyOfWorkIfNeeded"]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box has a white background and a black border, containing the text 'cppgc::internal::MarkerBase::NotifyConcurrentMarkingOfWorkIfNeeded'. The right box has a light gray background and a black border, containing the text 'cppgc::internal::ConcurrentMarkerBase::NotifyOfWorkIfNeeded'.
