

v8::internal::wasm
::MultiLineStringBuilder
::ApproximateSizeMB

```
graph LR; A["v8::internal::wasm  
::MultiLineStringBuilder  
::ApproximateSizeMB"] --> B["v8::internal::wasm  
::StringBuilder::approximate  
_size_mb"]
```

A diagram showing a call from a function in the v8::internal::wasm namespace. The function is MultiLineStringBuilder::ApproximateSizeMB. It calls the method approximate_size_mb on a StringBuilder object, also in the v8::internal::wasm namespace.

v8::internal::wasm
::StringBuilder::approximate
_size_mb
