

v8::internal::anonymous
_namespace{objects::cc}
::GetLineEnd

```
graph LR; A["v8::internal::anonymous  
_namespace{objects::cc}  
::GetLineEnd"] --> B["v8::internal::Smi::  
ToInt"]
```

A diagram showing a call from an anonymous namespace to the Smi::ToInt method. The left box is shaded gray and contains the text 'v8::internal::anonymous _namespace{objects::cc} ::GetLineEnd'. A blue arrow points from the right side of this box to the right box, which is white with a black border and contains the text 'v8::internal::Smi:: ToInt'.

v8::internal::Smi::
ToInt
