

TorqueGeneratedJSAsyncGenerator
Object < JSAsyncGeneratorObject,
JSGeneratorObject >

v8::internal::JSAsyncGenerator
Object

```
graph LR; A[v8::internal::JSAsyncGeneratorObject] --> B[TorqueGeneratedJSAsyncGeneratorObject < JSAsyncGeneratorObject, JSGeneratorObject >]
```

A diagram showing a relationship between two object types. On the right, a gray box contains the text "v8::internal::JSAsyncGeneratorObject". A blue arrow points from this box to the left, where a white box contains the text "TorqueGeneratedJSAsyncGeneratorObject < JSAsyncGeneratorObject, JSGeneratorObject >". This indicates that the TorqueGeneratedJSAsyncGeneratorObject inherits from or is a specialization of the v8::internal::JSAsyncGeneratorObject.
