

std::false_type

```
classDiagram
    class v8_internal_is_direct_handle["v8::internal::is_direct_handle<T>"]
    class std_false_type["std::false_type"]
    v8_internal_is_direct_handle --|> std_false_type
```

The diagram illustrates a class hierarchy. At the bottom is a class box for `v8::internal::is_direct_handle<T>`, which is shaded gray and divided into three horizontal sections. The top section contains the class name. Above it is a class box for `std::false_type`, which is white and also divided into three horizontal sections. A blue arrow with an open triangular head points from the top section of the lower class to the bottom section of the upper class, indicating inheritance.

v8::internal::is_direct
_handle<T>
