The diagram illustrates a file dependency structure. At the top is a gray box representing the header file `/mnt/V8SourceCode/src/compiler/typed-optimization.h`. Below it are two white boxes representing source files. The left box is `/mnt/V8SourceCode/src/compiler/pipeline.cc` and the right box is `/mnt/V8SourceCode/src/compiler/typed-optimization.cc`. Blue arrows point from each source file box up to the header file box, indicating that both source files include the header file.
