

TorqueGeneratedJSBoundFunction
< JSBoundFunction, JSFunctionOrBound
FunctionOrWrappedFunction >

v8::internal::JSBoundFunction

```
graph RL; A[v8::internal::JSBoundFunction] --> B[TorqueGeneratedJSBoundFunction< JSBoundFunction, JSFunctionOrBoundFunctionOrWrappedFunction >];
```

The diagram illustrates an inheritance relationship. A grey rectangular box on the right contains the text 'v8::internal::JSBoundFunction'. A dark blue arrow points from this box to the right side of a larger white rectangular box on the left. This white box contains the text 'TorqueGeneratedJSBoundFunction' followed by a line break and '< JSBoundFunction, JSFunctionOrBoundFunctionOrWrappedFunction >'. The white box has a thin grey border, while the grey box has a black border.
