

v8::internal::PreParser
::AddFormalParameter

v8::internal::PreParser
::RewriteClassLiteral

v8::internal::PreParserExpression
::IsNull

```
graph LR; A[v8::internal::PreParser::AddFormalParameter] --> C[v8::internal::PreParserExpression::IsNull]; B[v8::internal::PreParser::RewriteClassLiteral] --> C;
```

The diagram illustrates a control flow or dependency structure. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'v8::internal::PreParser::AddFormalParameter' and the bottom box contains 'v8::internal::PreParser::RewriteClassLiteral'. On the right, a single gray rectangular box contains the text 'v8::internal::PreParserExpression::IsNull'. Two blue arrows originate from the right side of the top white box and the right side of the bottom white box, both pointing towards the left side of the gray box.
