

v8::internal::compiler
::TFPipelineData::set_graph

```
graph LR; A["v8::internal::compiler  
::TFPipelineData::set_graph"] --> B["v8::internal::compiler  
::TFPipelineData::graph"]
```

A diagram showing a call from the `set_graph` method to the `graph` method. The `set_graph` box is shaded gray, and the `graph` box is white. A blue arrow points from the right side of the `set_graph` box to the left side of the `graph` box.
