

v8::internal::compiler
::Reduction::Changed

```
graph LR; A["v8::internal::compiler  
::Reduction::Changed"] --> B["v8::internal::compiler  
::Reduction::replacement"]
```

A diagram illustrating a state transition. On the left, a gray rectangular box contains the text "v8::internal::compiler" on the first line and "::Reduction::Changed" on the second line. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text "v8::internal::compiler" on the first line and "::Reduction::replacement" on the second line. Both boxes have a thin black border.
