

v8::internal::wasm
::NativeModule::~~NativeModule

```
graph LR; A["v8::internal::wasm  
::NativeModule::~~NativeModule"] --> B["v8::internal::wasm  
::NativeModule::PrintCurrent  
MemoryConsumptionEstimate"]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'v8::internal::wasm' on the first line and '::NativeModule::~~NativeModule' on the second line. The right box is gray with a black border and contains the text 'v8::internal::wasm' on the first line, '::NativeModule::PrintCurrent' on the second line, and 'MemoryConsumptionEstimate' on the third line.
