

v8::internal::wasm
::LiftoffRegList::SpreadSet
BitsToAdjacentFpRegs

```
graph LR; A["v8::internal::wasm  
::LiftoffRegList::SpreadSet  
BitsToAdjacentFpRegs"] --> B["v8::internal::wasm  
::LiftoffRegList::FromBits"]
```

A diagram showing a transformation from a function call to another. On the left, a gray box contains the text 'v8::internal::wasm', '::LiftoffRegList::SpreadSet', and 'BitsToAdjacentFpRegs'. A blue arrow points from this box to a white box on the right. The white box contains the text 'v8::internal::wasm', '::LiftoffRegList::FromBits', and an empty space below it.
