

v8::internal::wasm
::NativeModule::UpdateWell
KnownImports

```
graph LR; A["v8::internal::wasm  
::NativeModule::UpdateWell  
KnownImports"] --> B["v8::internal::wasm  
::NativeModule::RemoveCompiledCode"]
```

A diagram showing a call from the `UpdateWellKnownImports` method to the `RemoveCompiledCode` method. The source box is white with a black border, and the target box is gray with a black border. A blue arrow points from the source box to the target box.
