The diagram illustrates a mapping from two source functions to a target function. Two white rectangular boxes on the left represent the source functions: 'v8::internal::WasmBuiltins Assembler::LoadContextFromWasm OrJsFrame' (top) and 'v8::internal::WasmBuiltins Assembler::LoadInstanceDataFromFrame' (bottom). Two blue arrows point from these boxes to a single gray rectangular box on the right, which represents the target function: 'v8::internal::CodeStubAssembler ::LoadFromParentFrame'.
