

v8::internal::WeakListVisitor  
< Context >::DoWeakList

v8::internal::VisitWeakList

v8::internal::MustRecord  
Slots

```
graph LR; A["v8::internal::WeakListVisitor< Context >::DoWeakList"] --> D["v8::internal::MustRecord Slots"]; B["v8::internal::VisitWeakList"] --> D;
```

The diagram illustrates a dependency or call relationship. Two white rectangular boxes on the left represent functions: 'v8::internal::WeakListVisitor < Context >::DoWeakList' (top) and 'v8::internal::VisitWeakList' (bottom). Two blue arrows originate from the right side of these boxes and point towards a single gray rectangular box on the right labeled 'v8::internal::MustRecord Slots'. This indicates that both functions interact with or depend on the 'MustRecord Slots' component.
