

v8::internal::DateParser
::TimeComposer::IsHour12

```
graph LR; A["v8::internal::DateParser  
::TimeComposer::IsHour12"] --> B["v8::internal::DateParser  
::Between"]
```

A diagram showing a call from the `IsHour12` method to the `Between` method. The `IsHour12` box is shaded gray, and the `Between` box is white. A blue arrow points from the right side of the `IsHour12` box to the left side of the `Between` box.
