

/mnt/V8SourceCode/src
/d8/d8-platforms.h

```
graph TD; A["/mnt/V8SourceCode/src<br>/d8/d8-platforms.h"] --> B[cstdint]; A --> C[memory];
```

The diagram illustrates a dependency or relationship. At the top, a gray rectangular box contains the file path `/mnt/V8SourceCode/src/d8/d8-platforms.h`. Two blue arrows originate from the bottom edge of this box. The left arrow points to a white rectangular box labeled `cstdint`. The right arrow points to another white rectangular box labeled `memory`. This suggests that the header file `d8-platforms.h` defines or includes definitions for the `cstdint` and `memory` components.

cstdint

memory
