

v8::internal::SharedMacro  
AssemblerBase::l16x8ExtMulHighS

v8::internal::SharedMacro  
AssemblerBase::l16x8SConvertl8x16High

v8::internal::Assembler  
::vpsraw

```
graph LR; A["v8::internal::SharedMacro<br>AssemblerBase::l16x8ExtMulHighS"] --> C["v8::internal::Assembler<br>::vpsraw"]; B["v8::internal::SharedMacro<br>AssemblerBase::l16x8SConvertl8x16High"] --> C;
```

The diagram illustrates a dependency or inheritance relationship. On the left, there are two white rectangular boxes. The top box contains the text 'v8::internal::SharedMacro' followed by 'AssemblerBase::l16x8ExtMulHighS' on the next line. The bottom box contains 'v8::internal::SharedMacro' followed by 'AssemblerBase::l16x8SConvertl8x16High' on the next line. On the right, there is a gray rectangular box containing 'v8::internal::Assembler' followed by '::vpsraw' on the next line. Two blue arrows point from the right side of each white box to the left side of the gray box, indicating that both shared macro assemblers are associated with or inherit from the 'vpsraw' assembler.
