

v8::internal::compiler
::Pipeline::GenerateCodeForTesting

```
graph LR; A[v8::internal::compiler::Pipeline::GenerateCodeForTesting] --> B[v8::internal::compiler::turbohaft::Pipeline::RunSimplificationAndNormalizationPhase];
```

A diagram showing a call from the `GenerateCodeForTesting` method to the `RunSimplificationAndNormalizationPhase` method. The source box is white with a black border, and the target box is gray with a black border. A blue arrow points from the source box to the target box.
