

Base

The diagram illustrates inheritance. At the top is a box representing the 'Base' class, divided into three horizontal sections. The top section is labeled 'Base'. Below it are two empty sections. At the bottom is a larger box representing a derived class, also divided into three horizontal sections. The top section contains the text 'v8::internal::WithStrong TrustedPointer< kFieldOffset, kTag >::BodyDescriptor< Base >'. The middle section is empty. The bottom section contains the text '+ IterateBody()'. A blue arrow points from the top of the derived class box to the bottom of the 'Base' class box, indicating that the derived class inherits from the base class.

v8::internal::WithStrong
TrustedPointer< kFieldOffset,
kTag >::BodyDescriptor< Base >

+ IterateBody()
