

v8::internal::compiler
::CodeAssembler::MemoryBarrier

```
graph LR; A[v8::internal::compiler::CodeAssembler::MemoryBarrier] --> B[v8::internal::compiler::RawMachineAssembler::MemoryBarrier];
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'v8::internal::compiler' on the first line and '::CodeAssembler::MemoryBarrier' on the second line. The right box is gray with a black border and contains the text 'v8::internal::compiler' on the first line, '::RawMachineAssembler' on the second line, and '::MemoryBarrier' on the third line.

v8::internal::compiler
