

v8::internal::maglev  
::MaglevGraphBuilder  
::BranchBuilder::Build

```
graph LR; A["v8::internal::maglev  
::MaglevGraphBuilder  
::BranchBuilder::Build"] --> B["v8::internal::maglev  
::MaglevGraphBuilder  
::StartFallthroughBlock"]
```

A diagram showing a call from the `BranchBuilder::Build` method to the `StartFallthroughBlock` method. The source box is white with a black border, and the target box is gray with a black border. A blue arrow points from the source box to the target box.
