

v8::internal::wasm
::gdb_server::Target::Run

```
graph LR; A["v8::internal::wasm  
::gdb_server::Target::Run"] --> B["v8::internal::wasm  
::gdb_server::Target  
::WaitForDebugEvent"]
```

A diagram showing a call from the `Run` method to the `WaitForDebugEvent` method. The `Run` method is in a white box on the left, and the `WaitForDebugEvent` method is in a gray box on the right. A blue arrow points from the `Run` box to the `WaitForDebugEvent` box.
