

TorqueGeneratedJSDataView

```
classDiagram
    class TorqueGeneratedJSDataView {
    }
    class v8_internal_JSDataView["v8::internal::JSDataView"] {
        < JSDataView, JSDataViewOrRabGsab\n        DataView >
    }
    v8_internal_JSDataView --|> TorqueGeneratedJSDataView
```

The diagram illustrates a class hierarchy. At the top is the `TorqueGeneratedJSDataView` class, represented by a rectangle with a light gray header and two light gray body sections. Below it is the `v8::internal::JSDataView` class, represented by a rectangle with a white header and two white body sections. A blue arrow with an open triangular head points from the `v8::internal::JSDataView` class to the `TorqueGeneratedJSDataView` class, indicating that `TorqueGeneratedJSDataView` inherits from `v8::internal::JSDataView`.
