

v8::internal::compiler
::CodeAssemblerCompilationJob
::PrepareJobImpl

```
graph LR; A["v8::internal::compiler  
::CodeAssemblerCompilationJob  
::PrepareJobImpl"] --> B["v8::internal::compiler  
::PipelineImpl::data"]
```

A diagram showing a call from the `PrepareJobImpl` method of the `CodeAssemblerCompilationJob` class to the `data` member of the `PipelineImpl` class. The source box is white with a black border, and the target box is gray with a black border. A blue arrow points from the source to the target.
