

v8::internal::AllStatic

```
classDiagram
    class v8_allstatic["v8::internal::AllStatic"]
    class v8_execution["v8::internal::Execution"]
    v8_execution --|> v8_allstatic
```

The diagram consists of two class boxes. The top box, labeled 'v8::internal::AllStatic', has three horizontal compartments: the top one for the name, and two empty ones below it. The bottom box, labeled 'v8::internal::Execution', has three compartments: the top one for the name, an empty middle one, and a bottom one containing a list of methods. A blue arrow with an open triangular head points from the top of the 'v8::internal::Execution' box to the bottom of the 'v8::internal::AllStatic' box, indicating inheritance.
