

v8::base::WindowsTimezone
Cache::LocalTimezone

```
graph LR; A["v8::base::WindowsTimezone  
Cache::LocalTimezone"] --> B["time"]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is gray with a black border and contains two lines of text: 'v8::base::WindowsTimezone' and 'Cache::LocalTimezone'. A blue arrow points from the right side of this box to the left side of a second box. The second box is white with a black border and contains the word 'time'.
