

v8::internal::compiler  
::turbohaft::detail::  
ValueMatch::bind

```
graph LR; A["v8::internal::compiler  
::turbohaft::detail::  
ValueMatch::bind"] --> B["v8::internal::DCHECK"]
```

A diagram showing a call from the function `ValueMatch::bind` in the namespace `v8::internal::compiler::turbohaft::detail` to the `DCHECK` macro in the namespace `v8::internal`. The source function is in a grey box, and the target macro is in a white box, connected by a blue arrow.

v8::internal::DCHECK
