

v8::internal::compiler  
::RepresentationSelector  
::graph

```
graph LR; A["v8::internal::compiler  
::RepresentationSelector  
::graph"] --> B["v8::internal::compiler  
::MachineGraph::graph"]
```

A diagram showing a relationship between two V8 internal compiler components. On the left is a gray rectangular box containing the text 'v8::internal::compiler', '::RepresentationSelector', and '::graph' stacked vertically. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'v8::internal::compiler' and '::MachineGraph::graph' stacked vertically.
