

v8::internal::compiler
::NodeOriginTable::Decorator
::Decorate

```
graph LR; A["v8::internal::compiler  
::NodeOriginTable::Decorator  
::Decorate"] --> B["v8::internal::compiler  
::NodeOriginTable::SetNodeOrigin"]
```

A diagram showing a call from the `Decorate` method of the `v8::internal::compiler::NodeOriginTable::Decorator` class to the `SetNodeOrigin` method of the `v8::internal::compiler::NodeOriginTable` class. The source box is shaded gray and the target box is white. A blue arrow points from the source to the target.
