

v8::internal::baseline  
::BaselineAssembler::StoreRegister

```
graph LR; A["v8::internal::baseline  
::BaselineAssembler::StoreRegister"] --> B["v8::internal::baseline  
::BaselineAssembler::Move"]
```

A diagram showing a call from the `StoreRegister` method to the `Move` method. The `StoreRegister` box is shaded gray, and the `Move` box is white. A blue arrow points from the right side of the `StoreRegister` box to the left side of the `Move` box.
