

v8::internal::interpreter
::BytecodeRegisterAllocator
::ReleaseRegisters

```
graph LR; A["v8::internal::interpreter  
::BytecodeRegisterAllocator  
::ReleaseRegisters"] --> B["v8::internal::interpreter  
::BytecodeRegisterAllocator  
::Observer::RegisterListFreeEvent"]
```

A diagram showing a call from the `ReleaseRegisters` method of the `v8::internal::interpreter::BytecodeRegisterAllocator` class to the `RegisterListFreeEvent` method of the `v8::internal::interpreter::Observer` class. The call is represented by a blue arrow pointing from the left box to the right box.
