

```
v8::internal::anonymous  
_namespace{flags::cc}  
::ImplicationProcessor  
::TriggerImplication
```

A diagram showing a call from a function in an anonymous namespace to a static method. A blue arrow points from the `TriggerImplication` method in the `anonymous_namespace{flags::cc}` to the `GetDefaultValue` method in the `Flag` class.

```
v8::internal::Flag  
::GetDefaultValue
```
