

```
v8::internal::wasm  
::anonymous_namespace  
{module-compiler::cc}  
  ::IsLazyModule
```

A diagram showing a pointer relationship between two C++ code snippets. On the left, a gray box contains the code: `v8::internal::wasm`, `::anonymous_namespace`, `{module-compiler::cc}`, and `::IsLazyModule`. A blue arrow points from this box to a white box on the right. The white box contains the code: `v8::internal::wasm` and `::is_asmjs_module`.

```
v8::internal::wasm  
::is_asmjs_module
```
