

v8::internal::HeapEntry  
::add\_self\_size

```
graph LR; A["v8::internal::HeapEntry::add_self_size"] --> B["size"]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is gray with a black border and contains the text 'v8::internal::HeapEntry' on the top line and '::add\_self\_size' on the bottom line. A blue arrow points from the right side of this box to the left side of a second box. The second box is white with a black border and contains the text 'size'.
