

v8::internal::maglev  
::KnownNodeAspects::KnownNode  
Aspects

```
graph LR; A[v8::internal::maglev::KnownNodeAspects::KnownNodeAspects] --> B[v8::internal::maglev::anonymous_namespace{maglev-interpreter-frame-state::cc}::NextInIgnoreList];
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'v8::internal::maglev::KnownNodeAspects::KnownNodeAspects'. The right box is gray with a black border and contains the text 'v8::internal::maglev::anonymous\_namespace{maglev-interpreter-frame-state::cc}::NextInIgnoreList'.

v8::internal::maglev  
::anonymous\_namespace  
{maglev-interpreter-frame  
-state::cc}::NextInIgnoreList
