The diagram illustrates a function mapping. On the left, two white rectangular boxes represent source functions: 'v8_inspector::V8Debugger::AsyncEventOccurred' (top) and 'v8_inspector::V8Debugger::asyncTaskStarted' (bottom). On the right, a gray rectangular box represents the target function: 'v8_inspector::V8Debugger::asyncTaskStartedForStack'. Two blue arrows point from the source boxes to the target box, indicating that both source functions are mapped to the same target function.
