

v8::internal::compiler
::JumpLatency

```
graph LR; A[v8::internal::compiler::JumpLatency] --> B[v8::internal::compiler::DadduLatency]
```

A diagram showing a relationship between two V8 compiler classes. On the left is a gray rectangular box containing the text 'v8::internal::compiler' and '::JumpLatency'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'v8::internal::compiler' and '::DadduLatency'.
