```
graph LR; A[v8::internal::maglev::IntPtrConstant::DoReify] --> D[v8::internal::maglev::IntPtrConstant::value]; B[v8::internal::maglev::IntPtrConstant::PrintParams] --> D; C[v8::internal::compiler::turbohaft::GraphBuildingNodeProcessor::Process] --> D;
```

The diagram illustrates a dependency or call graph. Three source nodes on the left are connected by blue arrows to a single target node on the right. The target node is shaded gray, while the source nodes are white with black borders. The source nodes are arranged vertically, and the arrows point from each source node to the target node.
