::CheckContextExtensions"] --> D;
```

The diagram illustrates a dependency or call relationship. Three source functions on the left are connected by blue arrows to a single target function on the right. The target function is highlighted with a gray background. The source functions are: v8::internal::maglev::MaglevGraphBuilder::BuildLoadContextSlot, v8::internal::maglev::MaglevGraphBuilder::BuildStoreContextSlot, and v8::internal::maglev::MaglevGraphBuilder::CheckContextExtensions. The target function is v8::internal::maglev::MaglevGraphBuilder::GetContextAtDepth.
