

v8::internal::KeyedStore
GenericAssembler::ShouldCall
Setter

```
graph LR; A["v8::internal::KeyedStore  
GenericAssembler::ShouldCall  
Setter"] --> B["v8::internal::KeyedStore  
GenericAssembler::IsSet"]
```

A diagram showing a call from the `ShouldCall` method to the `IsSet` method. The left box is shaded gray and contains the text `v8::internal::KeyedStore`, `GenericAssembler::ShouldCall`, and `Setter`. A blue arrow points from the right side of this box to the left side of the right box. The right box is white with a black border and contains the text `v8::internal::KeyedStore` and `GenericAssembler::IsSet`.
