

v8::internal::wasm
::gdb_server::GdbServerThread::Run

```
graph LR; A["v8::internal::wasm  
::gdb_server::GdbServerThread::Run"] --> B["v8::internal::wasm  
::gdb_server::SocketBinding  
::CreateTransport"]
```

A diagram showing a call from the `GdbServerThread::Run` method to the `SocketBinding::CreateTransport` method. The source box is white with a black border, and the target box is gray with a black border. A blue arrow points from the source box to the target box.
