

v8_inspector::V8Inspector

```
graph BT; A[v8_inspector::V8InspectorImpl] --> B[v8_inspector::V8Inspector]
```

The diagram illustrates an inheritance relationship between two C++ classes. At the bottom is a white box labeled 'v8_inspector::V8InspectorImpl'. A blue arrow points vertically upwards from this box to a gray box at the top labeled 'v8_inspector::V8Inspector', indicating that the implementation class inherits from the base class.
