

v8::base::LoadSymbols

v8::internal::Heap
::RecordStats

v8::base::OS::GetLastError

```
graph LR; A[v8::base::LoadSymbols] --> C[v8::base::OS::GetLastError]; B[v8::internal::Heap::RecordStats] --> C;
```

The diagram illustrates a dependency or call relationship. Two source functions, 'v8::base::LoadSymbols' and 'v8::internal::Heap::RecordStats', are shown on the left. Arrows from both point to a single target function, 'v8::base::OS::GetLastError', on the right. The target function box is shaded gray, while the source function boxes are white with black borders.
