The diagram illustrates a mapping or transformation. On the left, there are two white rectangular boxes. The top box contains the text 'v8_inspector::V8HeapProfiler' followed by 'AgentImpl::getHeapObjectId' on the next line. The bottom box contains 'v8_inspector::V8Inspector' followed by 'SessionImpl::unwrapObject' on the next line. On the right, there is a single gray rectangular box containing 'v8_inspector::V8Inspector' followed by 'SessionImpl::unwrapObject' on the next line. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both source functions or methods are mapped to the same target function or method.
