

```
cppgc::internal::anonymous  
_namespace{sweeper::cc}  
::DeadlineChecker::Check
```

```
graph LR; A["cppgc::internal::anonymous  
_namespace{sweeper::cc}  
::DeadlineChecker::Check"] --> B["v8::base::TimeTicks::Now"]; B --> C["v8::base::TimeTicks  
::TimeTicks"]
```

The diagram illustrates a sequence of three function calls or namespace references. The first box, on the left, is shaded gray and contains the code `cppgc::internal::anonymous_namespace{sweeper::cc}::DeadlineChecker::Check`. A blue arrow points from this box to the second box, which is white and contains `v8::base::TimeTicks::Now`. Another blue arrow points from the second box to the third box, which is white and contains `v8::base::TimeTicks::TimeTicks`. The boxes are arranged horizontally from left to right.

```
v8::base::TimeTicks::Now
```

```
v8::base::TimeTicks  
::TimeTicks
```
