

v8::internal::IteratorBuiltins
Assembler::IterableToFixedArray

v8::internal::IteratorBuiltins
Assembler::StringListFromIterable

v8::internal::GrowableFixed
Array::ToFixedArray

```
graph LR; A["v8::internal::IteratorBuiltins<br>Assembler::IterableToFixedArray"] --> C["v8::internal::GrowableFixed<br>Array::ToFixedArray"]; B["v8::internal::IteratorBuiltins<br>Assembler::StringListFromIterable"] --> C;
```

The diagram illustrates a mapping or transformation process. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'v8::internal::IteratorBuiltins' and 'Assembler::IterableToFixedArray'. The bottom box contains 'v8::internal::IteratorBuiltins' and 'Assembler::StringListFromIterable'. On the right, there is a gray rectangular box with a black border containing the text 'v8::internal::GrowableFixed' and 'Array::ToFixedArray'. Two blue arrows point from the right side of each white box to the left side of the gray box, indicating that both source functions or methods are transformed or mapped to the target function.
