

v8::internal::ConstantPool
Entry::merged_index

v8::internal::ConstantPool
Entry::set_merged_index

v8::internal::ConstantPool
Entry::is_merged

```
graph LR; A["v8::internal::ConstantPool<br/>Entry::merged_index"] --> C["v8::internal::ConstantPool<br/>Entry::is_merged"]; B["v8::internal::ConstantPool<br/>Entry::set_merged_index"] --> C;
```

The diagram illustrates a relationship between three code elements. On the left, there are two white rectangular boxes. The top box contains the text 'v8::internal::ConstantPool' followed by 'Entry::merged_index' on a new line. The bottom box contains 'v8::internal::ConstantPool' followed by 'Entry::set_merged_index' on a new line. On the right, there is a gray rectangular box containing 'v8::internal::ConstantPool' followed by 'Entry::is_merged' on a new line. Two blue arrows point from the right side of the left boxes to the left side of the gray box. The top arrow originates from the right side of the top white box, and the bottom arrow originates from the right side of the bottom white box.
